Northeast Florida Local Emergency Planning Committee

Wednesday, May 9, 2018

10:00 a.m.

M I N U T E S

A meeting of the Northeast Florida Local Emergency Planning Committee was held on Wednesday, May 9, 2018, at 10:10 a.m., at the Northeast Florida Regional Council, 100 Festival Park Avenue, Jacksonville, Florida 32202. Chairperson Chief Richard Knoff called the meeting to order with the following members:

Present
Terry Carr – Environmental
Anthony Cinelli – Local Environmental
John Coffey - Health
Chief Lenny Ensalaço – Firefighting
Gracie Kennedy – Environmental
Chief Richard Knoff – Firefighting
Michael Lesser – Facility Operator
William Lord – Facility Owner
Steve Millican – Emergency Management
Fred Rogers – Emergency Management
Chief Todd Smith – Firefighting
Amy Pilgrim for Henry Bonar – Facility Owner
Julius Rinosa for Paul Crist – Transportation
Pete Gunnell for George Faucher, Jr. – Firefighting

Absent
Morrison Braren – Non-Elected Local Official
Douglas Coleman – Environmental
Sandi Courson – Health
Bill Decker – Local Environmental
Bek Harrison – Law Enforcement
Chief Joe King - Firefighting
Michael Laycock – Facility Operator
Quin Romay – Emergency Management
Chief John Scott, III - Firefighting
John Ward – Emergency Management

Excused
Ben Huron – Local Environmental
Brooke Martin – Transportation
Martha Oberdorfer – Emergency Management
Chief Harvey Silcox – Firefighting
Chief Joel Sneed – Firefighting
Roger Studenski – Transportation
Ken Wilkey – Facility Owner

Guests: Gerald Giriden, Lance Thibault (NS Mayport), Alexandra Porter (Gateway), Gina Lambert (FDEM), Alex Sease (Contanda Terminals), Steve Sciotto (JBFD), Alison Blitch (125th FLANG), Eric Walsh (125th FLANG), Sean Hatchett (JFRD), Bill Raspet (NAS Jax), James Ray (NCSO), Darryl Albury (FDLE), and other members of the public.

Staff Present: Tyler Nolen, Eric Anderson, Brian Teeple and Sheron Forde

*APPROVAL OF MINUTES

Chair Knoff called for a motion on the February 2018 Meeting Minutes. Mr. Lesser made the motion to approve the February 2018 Minutes; seconded by Mr. Cinelli. The motion carried.
STATE EMERGENCY RESPONSE COMMISSION (SERC) MEETINGS

Mr. Nolen provided an overview of the Training Task Force, LEPC Chair/Coordinator, and SERC meetings that took place April 13-13, 2018 in St. Augustine, FL.

Training Task Force Meeting
An overview of this meeting discussions were highlighted, such as, the integration of a hazmat team member into a explosive ordinance disposal and special tactics team; the 6th annual HazMat Symposium, which had 552 attendees, 65 classroom courses and seven (7) hands on courses; and providing FirstNet capabilities to regional hazmat teams. This is a broadband network designed to give first responders priority rights to cell tower services. A more detailed presentation of FirstNet will be provided at the next LEPC meeting.

LEPC Chairs/ SERC Meetings
The LEPC meeting included an overview of the Training Task Force, Statewide LEPC meeting and the SERC meeting. The Florida Pipeline Emergency Response Initiative (PERI) held their first meeting on April 11, 2018 with the transportation and distribution groups. A Committee has been formed to investigate which model the State should utilize. The next PERI meeting is scheduled for July 11, 2018. The next SERC meeting is scheduled for July 12-13, 2018.

CURRENT BUSINESS/REPORTS

Hazardous Material Release Report
Mr. Nolen provided an overview of Section 304 Release Investigations, as well as traffic evacuations, injuries or deaths from HazMat incidents. It was mentioned that the State is now requesting a seven-day follow up report on local incidents.

EPCRA/How to Comply Training
LEPC, in coordination with the State, offered three classes on the EPCRA How to Comply. This included information on how the LEPC’s are organized in Florida and how to submit Tier II reports electronically. Florida is moving away from paper to wireless filing via the E-Plan.

Georgia SERC/LEPC Summit
Staff attended the Georgia SERC/LEPC Summit on February 20th and provided a presentation on Florida’s LEPC operations and conduct of its LEPC/SERC. Georgia’s SERC/LEPC is different in that they have 18 LEPCs that tend to be all hazards and they receive no state funding.

Gasoline Tanker Truck Emergencies Courses
Mr. Nolen stated that courses specific to gasoline tanker truck emergencies will be provided, beginning in the Fall, in multiple locations such as Baker, Duval and Nassau.

Shelter In Place/Evacuation Presentations
The LEPC provided three days of Shelter in Place training, two of which were at the Clay County Fair and one day at the Clay County touch a truck event. One is currently scheduled for Jacksonville Beach on May 25th. This presentation can be conducted at any facility upon request. A presentation will be provided at the next LEPC meeting.

A request was made to reach out to the Duval County Public Schools’ Administration to bring awareness to help them branch out to ensure all schools have adequate SIP training/plans in place. Staff will follow up on this.
SUB-COMMITTEE REPORTS

Training
Mr. Nolen provided an overview of the training courses completed and current thus far. LEPC is seeking to conduct a 160-hr hybrid course annually that will be hosted by a local government with several smaller classes as needed. Upcoming courses include a HazMat Safety Officer 16-hour Technician course May 10-11, an International HazMat Conference on June 7-10, Teex HazMat Instructor-ENV 501 28-hour Train-the-Trainer course June 12-15. Additionally, dates are being finalized for a recently approved Unmanned Aircraft System (UAS) in HazMat Transportation Incidents course to be held at the Fire College; more information will be forthcoming.

Mr. Anderson stated that this class has been made available through the use of grant funds. It is a three-day, 10-hour per day training on UAS. Twenty participants will be identified to participate in this pilot program. Feedback will be help to determine what works and what doesn’t. If successful, this LEPC will be the host for program statewide.

Special Projects
Staff continues to seek ideas for Special Projects; however, none has been identified or requested thus far.

Fentanyl Safety Presentation
Lt. Mark Rowley, Jacksonville Fire/Rescue Department, provided a presentation on Fentanyl Safety.

PUBLIC COMMENT

None.

Next Meeting – The next quarterly meeting is scheduled for 10:00am, Wednesday, August 8, 2018 at the Northeast Florida Regional Council.

ADJOURNMENT

There being no further business to come before the LEPC, Chair Knoff adjourned the meeting at 11:27am.
TAB V
MEMORANDUM

DATE: July 17, 2018
TO: Northeast Florida Local Emergency Planning Committee
FROM: Tyler Nolen, LEPC Coordinator
RE: TTF, LEPC, & SERC Meetings

Summary

The following items were main points of discussion at the meetings:

• **Training Task Force Meeting**
  - The cancer safety for firefighter’s document is going to be signed and sent out by the SERC.
  - Project Boxes include guidelines for HazMat Medical Program which will include information for K-9 units as well.
  - Florida Pipeline Emergency Response Initiative will be a part of the Hazardous Materials Symposium.

• **LEPC Chair/Coordinator Meeting**
  - Mainly a recap of the TTF meeting

• **State Emergency Response Commission (SERC) Meeting**
  - Was a recap of the previous two meetings

RE:         Hazardous Materials Incident Reports

The attached tables and graphs provide information on all hazardous materials incident reports received by the State Watch Office. The incident reports are reviewed by Hazardous Materials Planning staff on a daily basis for compliance and verification purposes. The information helps identify potential Section 304 violators, as well as facilities which may have an obligation to report under other sections of EPCRA and the Risk Management Planning (RMP) programs.

**Table 1** - lists incidents by LEPC District for the period of 3/1/2018 through 05/31/18. "Potential Section 304 Investigations" are incidents involving the release of Extremely Hazardous Substances (EHS) or Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) chemicals at fixed facilities and are investigated by State-level staff. In order for an incident to be covered under Section 304, the EHS or CERCLA chemical must meet or exceed its designated Reportable Quantity (RQ) and have potential for offsite exposure.

**Table 2** – lists incidents by LEPC District for the period of 3/1/2018 through 05/31/18. The list covers fixed facility and transportation related incidents and differentiates between chemical-related and traffic accident-related deaths. Please note that official causes of death are determined by the medical examiner’s office and may take up to 90 days for the final report.

**Graph I** - depicts total incidents within each LEPC District from 3/1/2018 through 5/31/18.

**Graph II** – depicts total incidents within the State from 1/1/2002 through 05/31/2018.

AUGUST 1, 2018 – “In less than a month all Florida students will be back in classes to start the new school year, and solutions to address school safety continues to remain top of mind across all of the state’s school districts. In response, Florida’s Region 3 Healthcare Coalition Alliance has taken on new school preparedness measures to ensure that all public school districts within its 18-county region are prepared to stop traumatic bleeds in the tragic event of a school shooting.

The initiative - part of the Coalition’s “Stop the Bleed” campaign - has purchased 3,000 bleeding kits to distribute among all of the public schools within the region. The kits are designed to stop major blood loss and prevent death by equipping school personnel and bystanders with all of the tools to save lives in the first critical moments after traumatic bleeding. Each kit contains: a tourniquet, trauma dressing, compressed gauze, nitrile gloves, trauma shears, instruction card, and a permanent marker to indicate the time that the tourniquet was applied. The use of the kits can save lives during the time that it takes emergency personnel to arrive on scene.

  St. Augustine, Florida 32202

Registration - [https://2ndteex-hazardousmaterials-instructor-tht.eventbrite.com](https://2ndteex-hazardousmaterials-instructor-tht.eventbrite.com)

Shipping hazardous materials? Handling hazardous materials? Signing hazardous waste manifests?

Did you respond similarly to any of the above questions? If so, then your organization needs the TEEX Hazardous Materials Instructor course (ENV501). Grant-funded training designed to meet DOT HMR; 49 CFR 172.704. Offered through PHMSA and delivered by TEEX.

Funded by the Pipeline and Hazardous Materials Safety Administration (PHMSA), this tuition-free, 28-hour, train-the-trainer course teaches participants how to recognize, identify, and ship hazardous materials. TEEX trains the trainer. Then the trainer trains the organization’s employees how to do the same.

The purpose of this course is to increase a HazMat employee’s safety awareness by training trainers and preparing those trainers to be an essential element in reducing hazardous materials incidents, particularly by minimizing the number of undeclared hazardous material shipments.

TEEX developed this course to focus on understanding the Hazardous Materials Regulations (HMR), recognizing and identifying hazardous material, and using provided tools for teaching this information to others.

Questions, please contact: Eric Anderson, Senior Regional Planner

MEMORANDUM

DATE: July 31, 2018
TO: Northeast Florida Local Emergency Planning Committee
FROM: Tyler Nolen, LEPC Coordinator
RE: Special Projects Subcommittee Report

The Special Projects Subcommittee will only be activated once a member of the LEPC would like to spearhead and implement a project, with the assistance of the LEPC and its membership. Any member can take the lead on a project.

At the current time a project has not been advanced by the membership. There are opportunities to take on projects associated to public outreach that would help to fulfill LEPC requirements.

Examples are:

- Speak on behalf of the LEPC and its membership on projects
- Assist with getting LEPC projects on public access
- Outreach to community groups on hazards and education
- Assist with planning exercises in transportation and fixed facilities
